Student transportation comes at considerable public cost and can absorb a surprising amount of a school district's or city's budget. These costs are covered by a mix of federal, state, and local funds and thus reflect policy decisions at multiple levels. Student transportation may also affect a student's health and well-being.

### **Student Transportation and Educational Access**

First, recent literature on the unique attributes and impacts of rural school transportation from both the educational and transportation fields was reviewed. Next, a summary of the general contemporary concepts behind coordination were considered. Finally, case studies and themes from pupil/non-pupil transportation coordination were reviewed.
