NIST promotes U.S. innovation and industrial competitiveness by advancing measurement science, standards, and technology in ways that enhance economic security and improve our quality of life.

National Institute of Standards and Technology | NIST

The Four Dimensions CV92A mercury probe system provides non-destructive and rapid measurement of current-voltage and capacitance-voltage curves to derive resistivity, breakdown voltage/field and film thickness of thin dielectric films without having to metallize the wafer and fabricate capacitors, as is required by traditional probe stations.

Center for Nanoscale Science and Technology | NIST

Science, Technology, Engineering and Mathematics (STEM), previously Science, Math, Engineering and Technology (SMET), is a term used to group together these academic disciplines. This term is typically used when addressing education policy and curriculum choices in schools to improve competitiveness in science and technology development. It has implications for workforce development, national ...
