Setting the Course

Setting the Course - Heinrich Böll Stiftung North America

Set the Course. In order to teach mathematics in a way that not only builds math skills but also builds student understanding of mathematics and problem solving, it is important for educators to start to think about how the standards build upon each other and how student progress within the standards builds math fluency throughout the years.

Set the Course - East Carolina University

Hi, The underlying literal meaning of 'set a course' is this. eg You are the Captain of a ship. You look at your chart, and decide that the course should be North-West. That's the direction your ship will go in. Your business example is a figurative use of the expression. Best wishes, Clive

Learn How to Cook with The Great Courses

I noted above that sets can be elements of sets. For example, a municipality is a set of people; a city a set of municipalities; a state a set of cities; a country a set of states; and finally, the UN a set of countries. The set representing the UN has, as its members, various countries. Each country has various states as its member.
