Nobel Prize. LSU, LIGO researchers and students contribute to win top physics prize

### **Department of Physics & Astronomy**

In the United States, Advanced Placement (AP) Physics collectively refers to the College Board Advanced Placement Program courses and exams covering various areas of physics. These are intended to be equivalent to university courses that use best practices of physics teaching pedagogy. Each AP Physics course culminates in an optional exam for which high-performing students may receive some ...

Explore the wonderful world of waves! Even observe a string vibrate in slow motion. Wiggle the end of the string and make waves, or adjust the frequency and amplitude of an oscillator.

### **Wave on a String - Waves | Frequency | Amplitude - PhET**

Physics 341 Experiment 4 Page 4-1 Chapter 4 Polarization 4.1 Introduction Polarization generally just means  $\hat{e}$  orientation.  $\hat{e}$  It comes from the Greek word polos, for the axis of a spinning globe.

### **Chapter 4 Polarization - Instructor.physics.lsa.umich.edu**

Broadcast radio waves from KPhET. Wiggle the transmitter electron manually or have it oscillate automatically. Display the field as a curve or vectors. The strip chart shows the electron positions at the

transmitter and at the receiver.

### **Radio Waves & Electromagnetic Fields - PhET**

Physics and astronomy give you a chance to explore the interactions of matter and energy at the deepest levels, from the subatomic to the cosmic. The Department of Physics and Astronomy offers tracks in physics, astrophysics, astronomy and Earth, planetary and space sciences (EPSS). In all tracks, students receive a B.A. in physics. You can also minor in both physics and astronomy.

### **FIELDS - C.N. Yang Institute for Theoretical Physics**

In physics, electromagnetic radiation (EM radiation or EMR) refers to the waves (or their quanta, photons) of the electromagnetic field, propagating (radiating) through space, carrying electromagnetic radiant energy. It includes radio waves, microwaves, infrared, (visible) light, ultraviolet, X-rays, and gamma rays.. Classically, electromagnetic radiation consists of electromagnetic waves ...
